⚙️ **Icon, Font, Colors**

{ kon.role, kon.coin, kon.reward }

Architecture

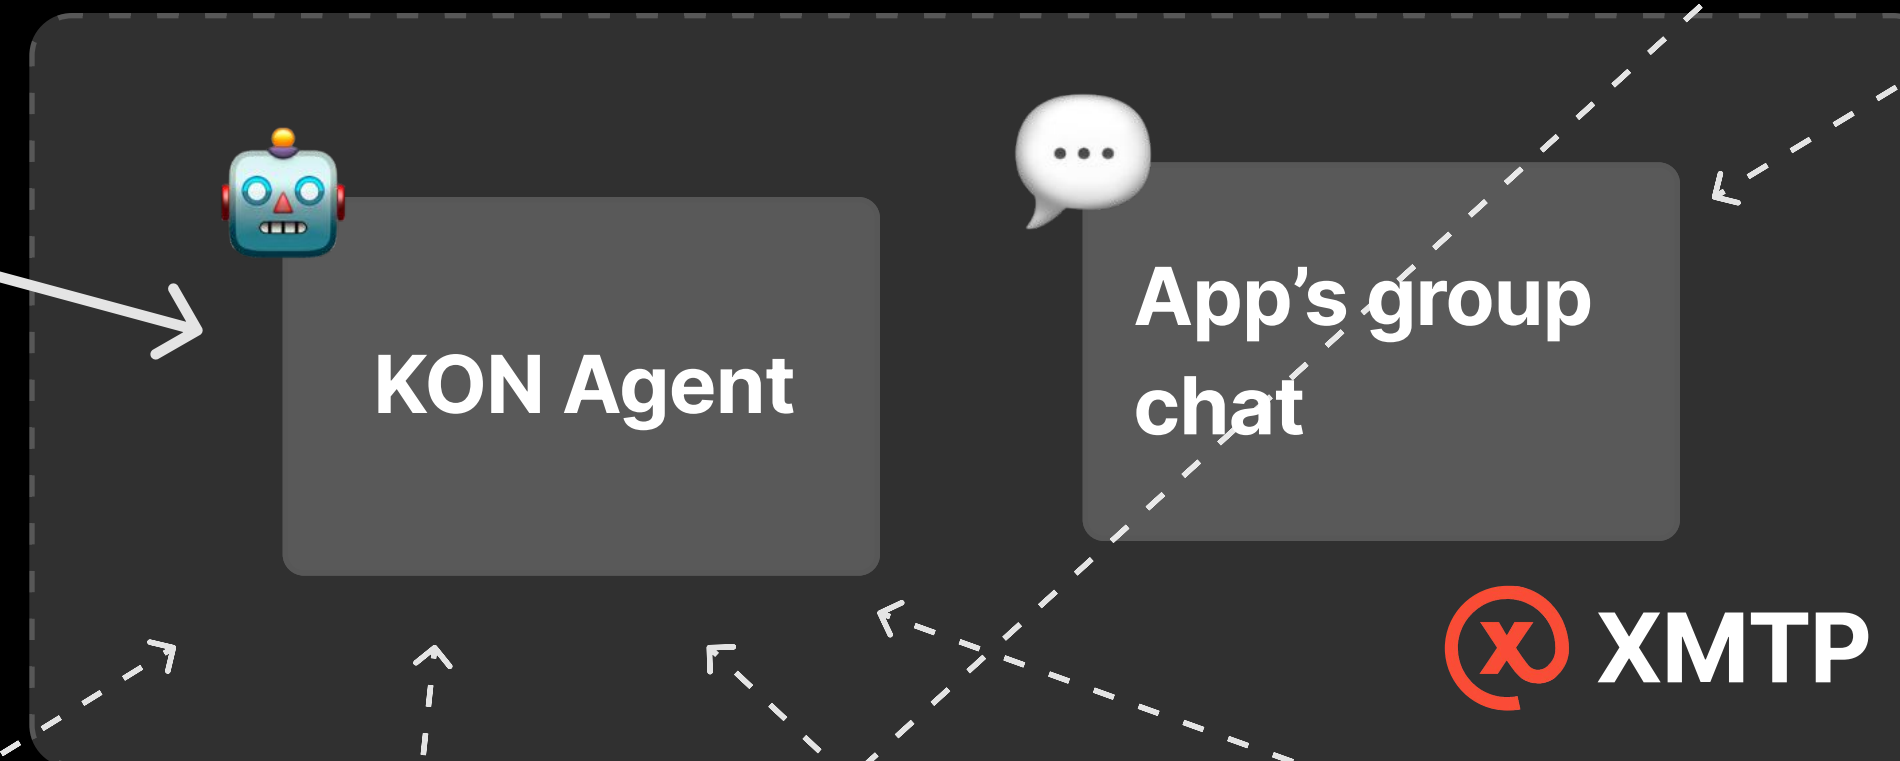

App Owner

- Create & setup app
- Create & manage app's coin
- Create & manage app's group chat

- Setup app helper with AI (agentkit)

• App's config

• Roles / Rewards

ENS

Sepolia

*move base later

EAS

Role Schema

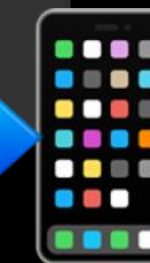

Reward Schema

AppCoin

Base

KON App

App Users

Signin with EOA or Smart Wallets

- App's coin
 - Create
 - Distribute
 - Burn for rewards

Why KON?

Easy to start

Owership

Composability

Cost Efficiency

- Passkey Wallet for App owner & user
- On-chain control /w ENS, EAS, Smart Wallet
- Templates, Plugins and On-chain data
- Cheap Initial & running cost on ETH L2

Use Cases

Event app

Tech Conference / Festival / Workshop /
Art Exhibitions

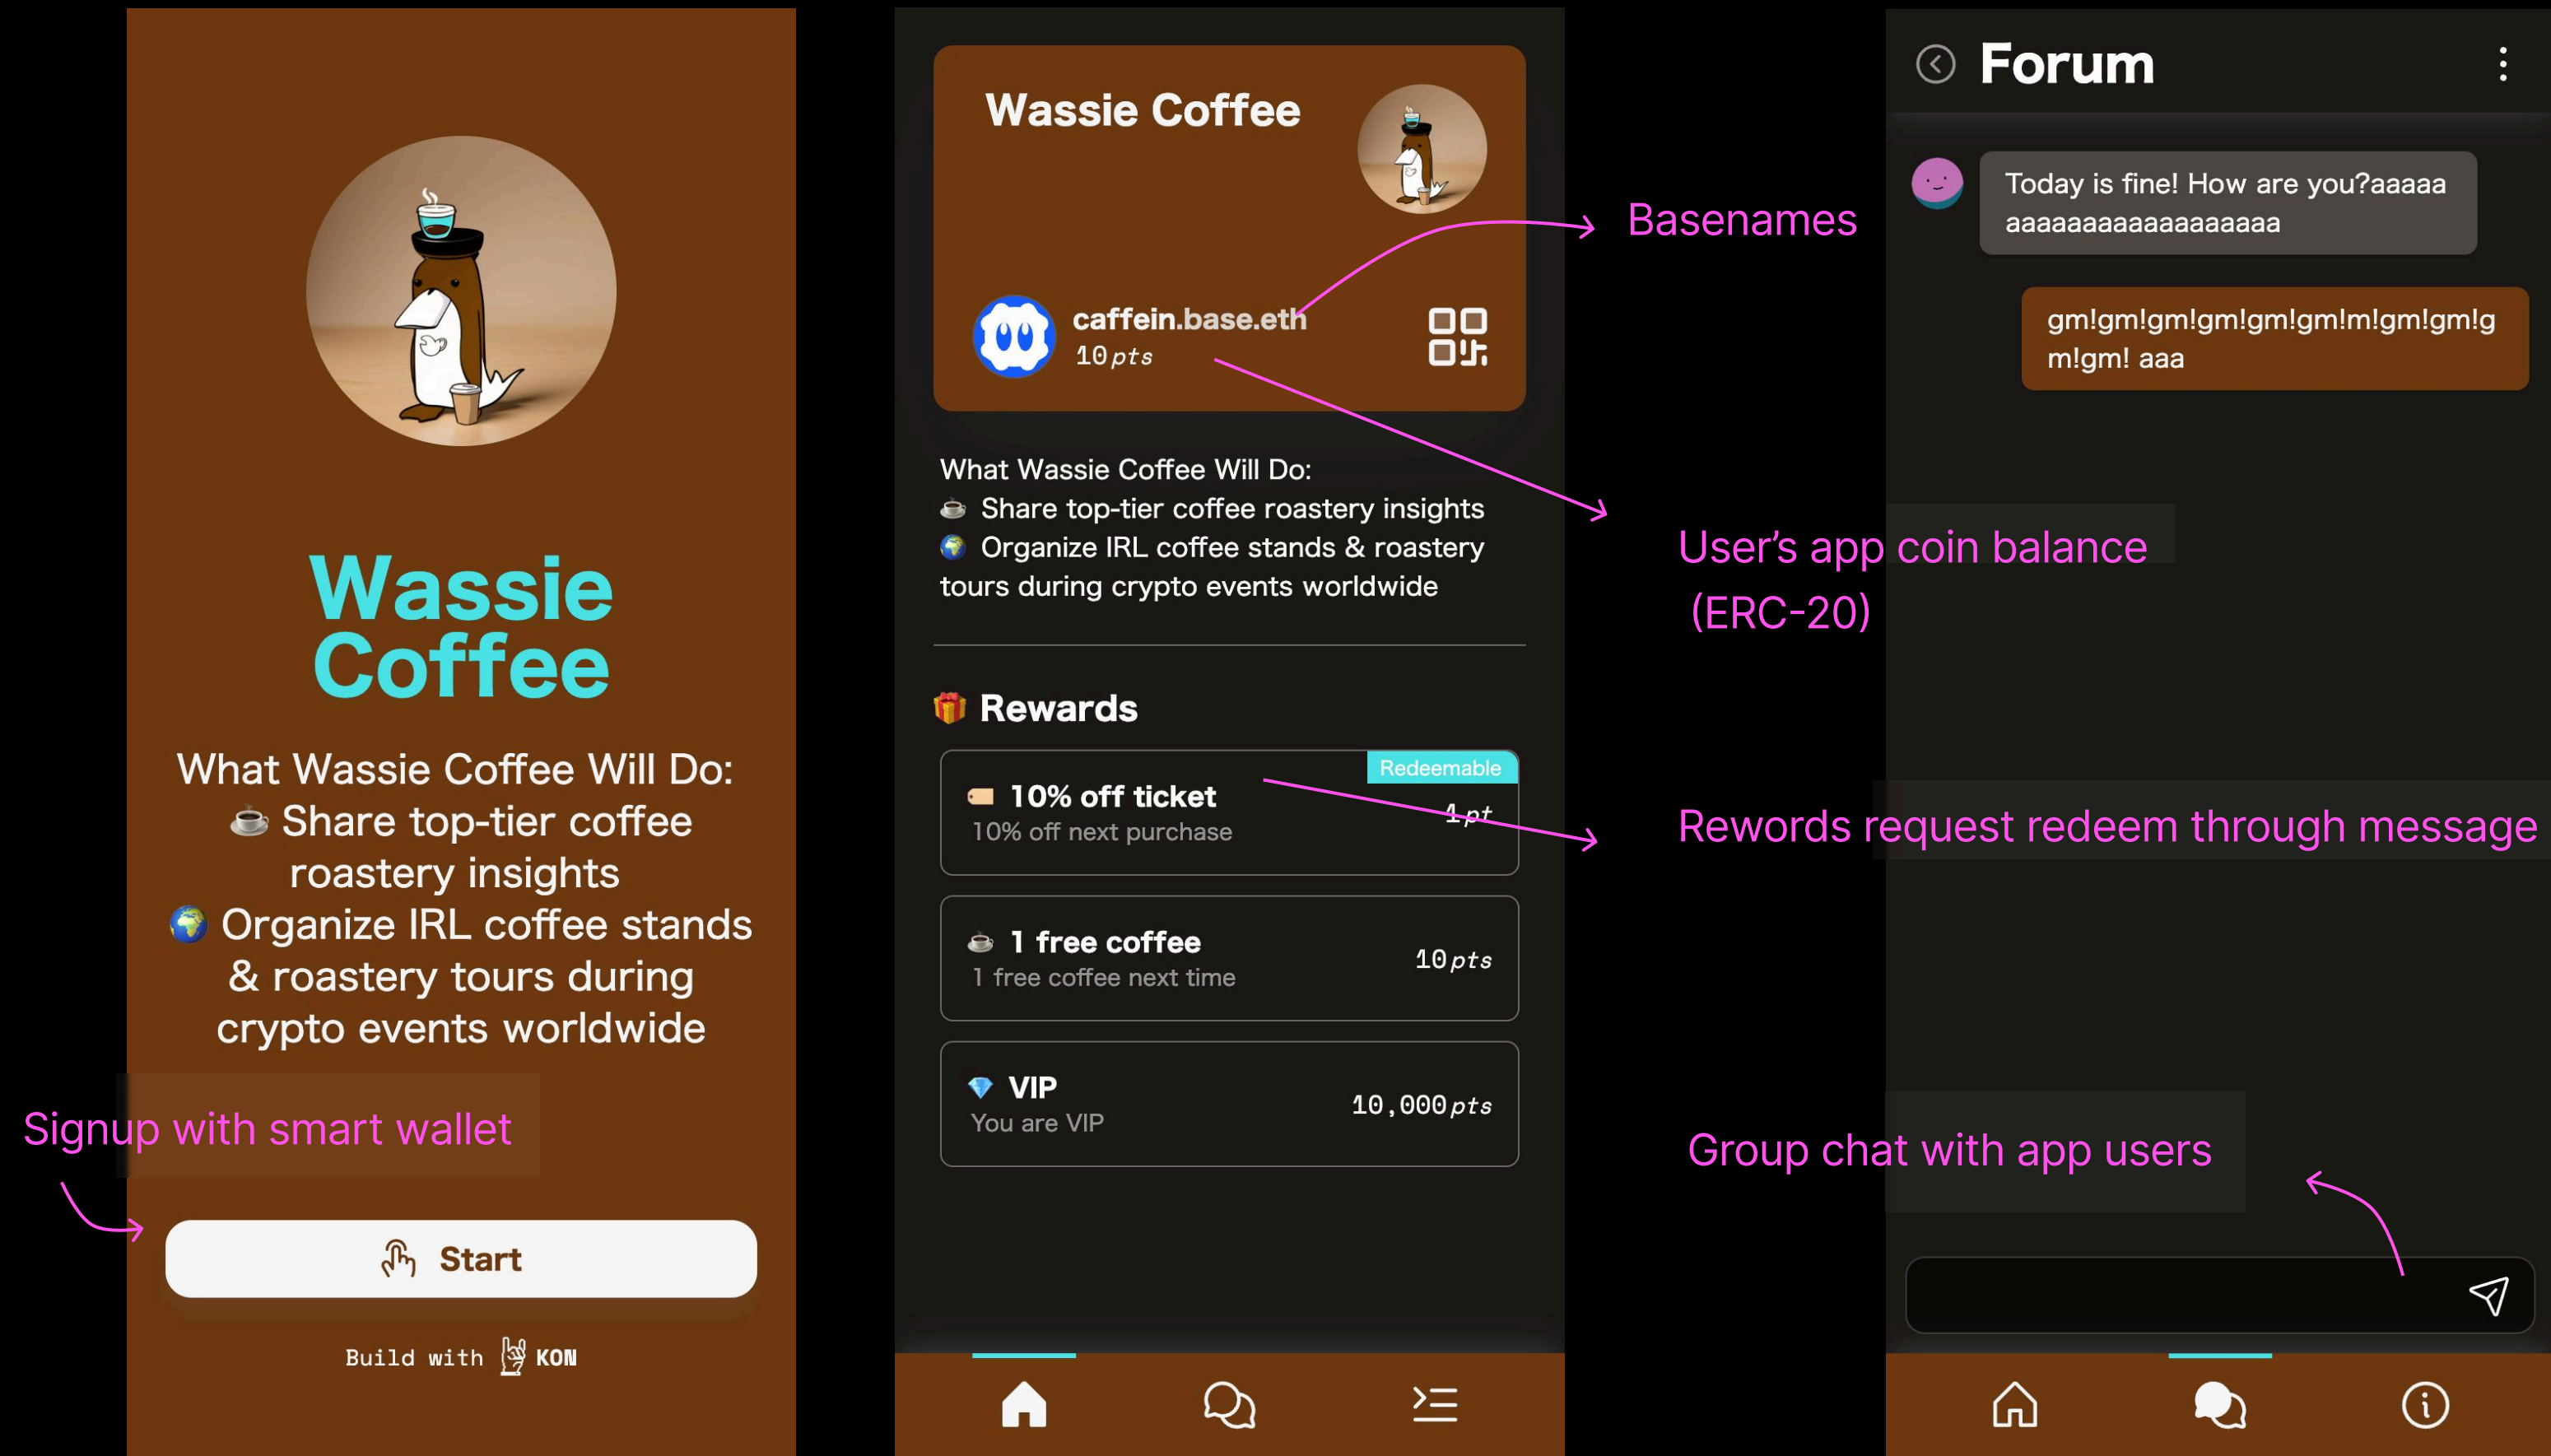

Shop app

Sports Club/ Coffee shop / Grocery Store /
Co-working

Community / DAO

Study groups / Alumni associations /
Neighborhood association / Fan Club

<https://wassiecoffee.kon.wtf>

Roadmap

 <https://github.com/buildwithkon/kon>

For Mainnet

- Multi-Owner (Smart Wallet)
- Role management (EAS)
- Ticket integration (EAS, NFT)
- Group chat integration (XMTP)
- Own L2 ENS names
- Setup wizard for app owner

In the future

- More templates, plugins
